

User Management

- [Create New User](#)

Create New User

This API enables your application to **Create new Business Admin or Business user under current user's organization.**

Endpoint

```
GET https://demo-api.frontpayment.no/api/v1/connect/users/create/{{userRoleSlug}}
```

userRoleSlug can be either 'user' or 'business-admin'

Authorization

Include a **Bearer Token** in the `Authorization` header. You can obtain this token from **Front Payment**.

Example:

```
Authorization: Bearer YOUR_FRONTPAYMENT_BEARER_TOKEN
```

Request Payload

Send the following parameters as a JSON object in the request body:

```
{
  "name": "Swedish BE User",
  "email": "swebeuser@yopmail.com",
  "countryCode": "+47",
  "msisdn": "46567468",
  "designation": null,
  "password": "qwerty12",
  "preferredLanguage": "en"
}
```

Validation Rules

Make sure your request meets the following requirements:

Field	Type	Description
name	string	Required Name of the user
email	string, email	Required Email of the user.
countryCode	string	Required Country code of the user.
msisdn	numeric	Required msisdn of the user
designation	string	Optional Designation of the user.
password	string	Required Password for user login
preferredLanguage	string	Required Code of user's preferred language and one of 'en', 'no', 'de', 'da', 'sv'.

Response

A successful request will return a `200 OK` status with the following JSON payload:

```
{
  "status_code": 201,
  "status_message": "OK",
  "message": "userCreatedSuccessfully",
  "is_data": false,
  "data": null
}
```

API returns a `400` error, it means user already exists with given email.

```
{
  "status_code": 400,
  "status_message": "Conflict of Business Logic ",
  "message": "userAlreadyExistsWithSameEmail",
  "is_data": false,
  "data": null
}
```

API returns a `510` error, it means something failed on the server side

```
{
  "status_code": 510,
  "status_message": "Execution Exception Occurred",
}
```

```
"message": "Something Went Wrong",  
"is_error": true,  
"errors": "Array"  
}
```
