

# Delayed Charge

With this API endpoint, you can charge from order using Order UUID.

---

## Endpoint

```
POST https://demo-api.frontpayment.no/api/v1/connect/orders/delayed/charge/{{ORDER_UUID}}
```

## Authorization

To access this endpoint, include a `Bearer Token` in the `Authorization` header of your request. You can obtain this token from Frontpayment.

**Example Authorization Header:** `Authorization: Bearer YOUR_FRONTPAID_BEARER_TOKEN`

## Response

A successful request will return a `200 OK` status with the following JSON payload:

```
{
  'status_code' => 200,
  'status_message' => 'OK',
  'message' => 'orderDelayedChargedSuccessfully',
  'is_data' => true,
  'data' => null,
}
```

API returns a `404` error, it means requested order with `ORDER_UUID` could not be found in our system.

```
{
  "status_code": 404,
  "status_message": "Not Found",
  "message": "orderNotFound",
  "is_data": false,
  "data": null
}
```

```
}
```

API returns a `510` error, it means something failed on the server side

```
{  
  "status_code": 510,  
  "status_message": "Execution Exception Occurred",  
  "message": "somethingWentWrong",  
  "is_error": true,  
  "errors": "Array"  
}
```
